School Board Approval

This plan was approved by the Levy County School Board on 10/27/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement

Our mission at Williston Middle High School is to build character, advance knowledge, and prepare our students to be community, college, career and society ready.

Provide the school's vision statement

Every Student, Every Day. College, Career, Community, and Society Ready.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Slemp, Joshua	Principal	<p>The Principal along with the Assistant Principals oversees academic growth and school safety. Administration uses collaborative processes for faculty to work together to improve instruction and ensures that professional development is ongoing throughout the school year. Every meeting administration holds with faculty, data is the focus and the driving force for discussions, professional development, and instruction design. Through walk-throughs and formal observations, administration provides feedback and tailors professional development to the individual needs of the teachers.</p>
Dola, Jennifer	Instructional Coach	<p>Our reading coaches support our teachers by providing push-in support, pull data, provide small group and whole group professional development and model best instructional practices in their model classrooms for one period everyday. Reading Coaches also provide leadership for our Problem Solving Teams (PST) which are held 1 every nine weeks and identify any students of concern from our EWS data.</p>
Westfall, Dorenda	Assistant Principal	<p>Administration uses collaborative processes for faculty to work together to improve instruction and ensures that professional development is ongoing throughout the school year. Every meeting administration holds with faculty, data is the focus and the driving force for discussions, professional development, and instruction design. Through walk-throughs and formal observations, administration provides feedback and tailors professional development to the individual needs of the teachers.</p>
Philpot, Amber	Instructional Coach	<p>Our reading coaches support our teachers by providing push-in support, pull data, provide small group and whole group professional development and model best instructional practices in their model classrooms for one period everyday. Reading Coaches also provide leadership for our Problem Solving Teams (PST) which are held 1 every nine weeks and identify any students of concern from our EWS data.</p>
Davis, Catherine	Teacher, K-12	<p>Lead team members meet with administration monthly and provide input based on their content area/grade levels. Lead team members also meet back with their respective teams and provide professional development and/or support each other with lesson planning.</p>

Name	Title	Job Duties and Responsibilities
Smith, James	Dean	Support admin and teachers in their roles with behavioral supports and strategies. Our deans also offer input and ideas to help our struggling students by established relationships.
Handley, Jennifer	Administrative Support	Testing coordinators oversee all testing on the campus for the school year. The coordinator runs reports to ensure all students needing initial and retake tests are given the opportunity. The coordinator makes sure our school follows state and district testing procedures and completes all required testing documents with security in mind.
Warren, Karen	Guidance Counselor	The guidance counselor's role is to provide supports for our students with their academic choices, social emotional and mental health issues. Our guidance department coordinates additional support services with our designated licensed mental health professional. Mrs. Warren in addition supports our 11th and 12th graders as a graduation coach assuring our seniors have required credits in order to graduate on time. Guidance provides supports to our parents acting as a liaison between them and their child's teachers. Guidance roles are multifaceted in the well being of all of our students, making sure students with IEPs, 504s and ELLs have a voice and support in the classroom. The guidance department provides resources to our students in all areas that effect their ability to be a productive student.
Hawkins, Benjamin	Assistant Principal	Administration uses collaborative processes for faculty to work together to improve instruction and ensures that professional development is ongoing throughout the school year. Every meeting administration holds with faculty, data is the focus and the driving force for discussions, professional development, and instruction design. Through walk-throughs and formal observations, administration provides feedback and tailors professional development to the individual needs of the teachers.
Myhree, Amanda	Dean	Support admin and teachers in their roles with behavioral supports and strategies. Our deans also offer input and ideas to help our struggling students by established relationships.
Couey, Natalie	Teacher, K-12	Lead team members meet with administration monthly and provide input based on their content area/grade levels. Lead team members also meet back with their respective teams and provide professional development and/or support each other with lesson planning.

Demographic Information

Principal start date

Sunday 7/1/2018, Joshua Slemp

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

4

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

10

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends

The lowest performance schoolwide has been ELA achievement. This has also been the lowest data point over the last two years of available FSA Data. In 2018 the school overall was at 39% achievement and in 2019 the school was at 42% proficiency. The middle school continues to struggle the most in reading proficiency being well below the state and distinct averages.

iReady Data from 19-20 had 28% of 6th grade students being proficient at mid-year. 21% of 7th grade students were proficient and 16% of 8th graders were proficient.

Star Data from 19-20 showed the following results. 33% of our 8th grade students were proficient at mid-year. 7% of our 9th graders in English 1 were proficient at mid-year. 68% of our 9th graders in English 2 were proficient and 19% of our English 2 students were proficient at mid-year.

Contributing factors: ELA has improved from one year to the next but it is still a slow improvement. The two week unit and curriculum maps have helped with improvement.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline

The greatest decline in data from 2019 for the school year was in Science Achievement. The contributing factor is unknown, as we actually improved in the area of Biology. The reason for a decrease in Science FCAT proficiency is still unknown, other than it being a different performing group of students, who also in 8th ELA showed concerns with proficiency. Science FCAT is also dependent on having a good set of reading skills and development. The school district also restructured the science curriculum for 6-8th grade which may have attributed to a drop off.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends

Again, Science Achievement had the biggest gap between our school and the state average for 2019. 8th grade science was 10 percentage points below the state average and Biology was 5 percentage points below the state average. The reason for a decrease in Science FCAT proficiency is still unknown, other than it being a different performing group of students, who also in 8th ELA showed concerns with proficiency. Science FCAT is also dependent on having a good set of reading skills and development. The school district also restructured the science curriculum for 6-8th grade which may have attributed to a drop off.

Which data component showed the most improvement? What new actions did your school take in this area?

Our last reported math achievement from 2019 would be our largest area of growth, specifically Algebra 1 performance, as it went from 44% to 64% proficient. New structures were put in place school-wide, but our largest contributing factor would be instruction/instructors. We had a new hire who taught many of our Alg 1 students. The use of Algebra Nation we also believe contributed to helping our students to being

prepared for the state EOC. Also, our Middle School Acceleration went from 37% to 72%. We would contribute this large increase in placing all of our level 3s and above in 7th grade Math FSA in Algebra 1.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Attendance continues to be an area of concern as reported in 2019, but we have many structures in place to help us to continue to improve in this area. We had 26% of our student population that was missing more than 10% of instruction at the beginning of last year, and this year we were able to move that percentage to 18%.

Students with multiple warning systems also continues to be an extremely high number

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year

1. Reading Achievement/Growth for all subgroups
2. Math Achievement/Growth for all subgroups
3. Attendance Rate of Students
4. Science Achievement- specifically 8th grade- all subgroups
5. SWD subgroup in all areas; Multiracial subgroup in all areas

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: Reading proficiency. Our reading proficiency remains below 50%, and it is below the state average as well.

Measureable Outcome: Williston Middle High School would like to increase our reading proficiency from 42% proficiency to 50% measured by FSA ELA.

Person responsible for monitoring outcome: Joshua Slemp (joshua.slemp@levyk12.org)

Monthly data chats/PSTs with ELA Teachers about level 1s and 2s , SWDs(ESSA Federal Index below 41%), and multiracial students(ESSA Federal Index below 41%)they are serving. We will review progress monitoring data (weekly/biweekly ELA assessments, iReady, Achieve 3000 data points, Read 180 data points, iReady lesson work/Diagnostics, Retake results).

Engagement PD-WICOR Strategies and Focused notetaking; Look fors in CWTs and Formals

Evidence-based Strategy: Teacher planning days with Coaches; Peer observations.

WOW nights- Working on the Work nights, where teachers collaboratively plan with peers for the units ahead. At these nights administration, coaches, and teachers will review data, evaluate where they are in alignment with district maps, examine the standards for upcoming units, and plan for assessments.

Devil Den Chats- Students monitor attendance, behavior, and especially academics. This form is sent home and signed by parents monthly.

Reading Parent Night- Show parents how they can help at home; Strategies for helping SWD

Rationale for Evidence-based Strategy: Rationale for strategies- These strategies increased our performance this past year, so we are keeping with the same way of work, with an increase in fidelity. Parent surveys indicate the need for help at home and continuous feedback on student performance, thus the parent night and Devil Den Chats.School Grade Target, CNA, Classroom walkthroughs and formal observations to check for effective implementation of the standards and the district curriculum maps, Lesson plans will also be checked by administration weekly/biweekly; Progress monitoring data

Action Steps to Implement

1. Schedule PSTs for progress monitoring and discussions with teachers. Set up data sheets to be used at these meetings/monitor data with a focus on 1s/2s, SWDs(ESSA Federal Index below 41%), and multiracial students(ESSA Federal Index below 41%)
2. Administration checks lesson plans biweekly.
3. Schedule WOW nights for collaboration on standards and assessments. Plan for how to utilize SIP days to add additional planning in this area.

4. Schedule Reading Parent Night.
5. Schedule planning days with Reading teachers and coaches.
6. Get teachers/students Devil Den Chat forms; Schedule these on the calendar
7. Schedule peer observations
8. CWTs and Formals to check for follow up/follow through on WICOR and Focused note taking, along with other high engagement strategies.

Person Responsible Joshua Slemp (joshua.slemp@levyk12.org)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

As indicate in 2019 data, ELA Achievement- All ELA teachers will be utilizing 2 week standard cycles. These are mapped out where a standards mastery check is at the end of each two week unit. Monthly PST's with administration for progress monitoring and discussions of students of concern. Focus will be on SWD's as well as multiracial students. , Lesson Plans checked for standards alignment, required participating in WOW/SIP days.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

WMHS offers several events, meetings and conferences to involve our parents, guardians and stakeholders on our campus. In August, we held our Open House for our incoming 6th graders and new students to tour the campus, followed by our Annual Title 1 Meeting and SAC membership meeting held September 15, 2020. We offer two Parent Conference Nights, many after school extra curricular and sporting events as well as setting the tone for an Open Door Policy for all stakeholders to be informed. WMHS continues to strive to create a positive campus climate for all of our stakeholders and allow them to be an integral part our students ongoing success. In our current climate of social distancing we have enhanced and utilized our social media avenues such as Facebook, Remind, Instagram, Skyward Messaging, Zoom and Google Meets to encourage more participation at our events. As an additional resource for our teachers to support our families for engagement, we scheduled Dr. Constantino for

professional development to share best practices to help create a welcoming campus for our parents and stakeholders.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget			
1	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
			Total:
			\$0.00
