## Your Humana Dental ID card is now digital!

Humana Dental Member,

Starting this summer, commercial Humana dental group members will have the convenience of a digital member ID card.

### Why is a digital card better than your old-school paper card? Here are a few reasons:

1. One less thing to carry in your packed wallet. By accessing your digital ID card, you don't have to keep the paper version in your wallet anymore.
2. Online means up to date. As soon as your account with Humana Dental is updated, your digital ID card is updated. Now that's something paper and mail can't offer!
3. You can email or fax a copy of the card to your providers or your family members.
4. You can print copies to give to your providers.
5. And we continue to "go green" for the environment by reducing the production of plastic products.

### How do I get access to my card?

There are two digital options

**All members:** To access a PDF or print your Humana Dental ID card, sign in to MyHumana. Once signed into MyHumana, you can access your digital card from the Access ID Card link. If you don't have a password and user ID yet, it's simple to follow the steps to set this up from Humana.com.

Don't forget while in MyHumana to also sign up for electronic correspondence. Stop all that paper coming to your house by updating your communication preferences.

**Smartphone users:** If you're a smartphone user, you can view or fax your ID card from the MyHumana mobile app. To search for the app, visit your app store and type "MyHumana" into your search. Once you launch the app, enter your user ID and password to sign in. Once on the app, your Humana Dental ID card will appear on your phone under the tooth icon. Using the MyHumana app, you can email or fax a copy to providers or email a copy to family members.

### What if I still want a card?

It's easy! Go to MyHumana and locate your card from the Access ID Card link. You can print a copy of your card directly from the site.

### What if I can't locate the card or find the app?

We're here to help. Don't hesitate to contact us via MyHumana secure email or through our toll-free number 1-800-233-4013.
