### About Florida Classic Growers

Florida Classic Growers is the exclusive marketer for Dundee Citrus Growers Association and the Florida Classic label. We pack and ship approximately 3.5 million cartons (4/5 equivalent) annually of the finest in fresh Florida Citrus. All of our citrus products are shipped from two of the most technologically advanced packing facilities located in central Florida. Both of these

facilities are just 1.5 miles from one another. Florida Classic Growers is a combination of some of the oldest cooperatives in the state, which comprise over 10, 000 acres of Florida red grapefruit, oranges and tangerines. We pack and ship 18 different varieties over a nine month-long growing season, ensuring extended availability to you and your customers.
