BOARD ATTORNEY

December 3, 2019

Dear Career and Technical Education Student and Parent:

Suwannee County School District is proud to have robust career and technical education (CTE) programs in our secondary schools with over 1,900 students currently enrolled in CTE programs at Branford High School, Suwannee High School, Suwannee Middle School, and RIVEROAK Technical College. Our teachers work very hard to ensure that we are providing quality programs and as a testament to that, 975 industry certifications were earned by secondary students last year. This year's projection is even higher!

Fifty-five industry certifications and licensures are offered throughout the District and 16 of those earn college credit through statewide articulation agreements with Florida colleges. Students actually earn college credit prior to exiting high school through earning a qualified industry credential. We also have local agreements with North Florida College, Santa Fe College, and Tallahassee Community College that earn additional college credits through industry certifications and program completion. This ensures our students are college ready and/or work ready.

On the attached sheet is a listing of CTE programs, along with their certifications that articulate to college credit. Credits awarded, college savings, and program locations are also listed. Directly beneath are CTE programs with additional industry certifications available to our Suwannee County students. If you have questions regarding the attachment, please contact Mary Keen, Director of Career, Technical, and Adult Education at 386-647-4200. Suwannee County School District is my choice for quality career and technical education programs!

Sincerely,

Ted L. Roush
Superintendent
