- School Vision – JMPHS achieved our goals for this year. We need to decide if next year we would like to become a collegiate High School, possible name change to do that. Have dual enrollment and maintain a 2.5. Or become Technical High school, name change and each student would have to leave with a certification. Or continue as a Traditional Charter School as a college prep. School. If we chose traditional the students would have to maintain a minimum GPA as freshman year 1.0 , sophomore year 1.5 and as a Junior and senior 2.0
