CORONAVIRUS

EXPOSURE & CONTACT TRACING

CREATING MINIMAL DISRUPTION GUIDANCE FOR EXPOSURE & CONTACT TRACING

Simply being in the same classroom, building, or at the same event as a positive or symptomatic person does not mean someone must be contact traced and self-isolate.

To the extent possible, isolate the scope of the problem by determining who meets the CDC definition of exposed to the positive or symptomatic person.

Minimize disruption by isolating only those individuals.

NOT Exposed:
Contact either
NOT Physically Close
or Close for less
than 15 Minutes

Exposure:
Close Contact
of 6 Feet or Less
for 15+ Minutes

**Positive or
Symptomatic**

CORONAVIRUS PREVENTION

4 KEY POINTS TO REMEMBER

- 1 If you feel sick or see symptoms of sickness, stay home or send home.
- 2 Protect the vulnerable.
- 3 If a COVID-19 case arises - don't panic, be surgical not sweeping. Quickly assess and limit the impact.
- 4 Communicate, communicate, communicate.
