

Exceptional Student Education Parent Survey

The ESE Parent Survey is now opened. Your input is important to us. [Please complete the Survey.](#)

Each year, the Florida Department of Education (FDOE) conducts a survey designed to provide FDOE and the United States Department of Education, Office of Special Education Programs (OSEP), with information on how well Florida's schools are partnering with parents and promoting parent involvement in their child's education. The survey is open to all parents of children with an individual educational plan (IEP) receiving ESE services from preschool age through grade 12 and is not intended for parents of students receiving only gifted services through an educational plan (EP). All states must collect this data as part of their State Performance Plan, as required under the Individuals with Disabilities Education Act (IDEA). Florida uses the instruments developed by the National Center for Special Education and Accountability Measures (NCSEAM). **The survey is available from February 1, through to May 31 of each year.**

Parent Survey Results

Survey results are reported to the United States Department of Education, Office of Special Education Programs, as part of Florida's Annual Performance Report (APR). Information about response rate and "met standard" for each district can be found in the local educational agency (LEA) profiles; the data is included as Section 4 of each LEA profile. For further information regarding the APR and LEA profiles, and to view these reports, visit [Data and Program Evaluation](#).

FDOE has made available the survey results by school, district and state below. Please note that only schools and districts with 10 survey responses or more are listed.
