

AP Computer Science Principles Summer Assignment 2017

Future AP Computer Science Principles Student,

Welcome to AP CSP! I am eagerly anticipating a great year of Computer Science Principles in order to ensure the best start for everyone next year; I have prepared a summer assignment that reviews basic CSP concepts.

To complete this assignment, you will need a computer with the internet connection. When you return to school, there will be a dropbox available for you to submit your work. Completed work must be submitted by AUGUST 18th; late work will not be accepted.

I hope you are looking forward to an exciting year of CSP. You are all certainly fine students, and with plenty of motivation and hard work you should find AP CSP a successful and rewarding experience.

Finally, I recommend that you spread out the summer assignment. Please do not try to complete it all in the final week of the summer. CSP takes time to process and grasp at a level necessary for success in AP CSP. Remember, AP CSP is a college level course. Taking a college level course in high school is difficult, requires dedication, and is a great investment in your education so prepare yourself and arrive ready to learn.

By signing below, the student and parents/guardian recognizes that this is a college level course in computer science. AP Computer Science Principles is a demanding class and success depends on ability, development of prerequisite skills, and a willingness to study. Advanced Placement classes require more study time than the typical high school class and this course runs on an accelerated schedule. The requirements for the AP test are covered prior to the exam that is administered in the first week of May.

A list of those requirements can be found by visiting the College Boards website (<https://apstudent.collegeboard.org/apcourse/ap-computer-science-principles>).

AP Computer Science Principles Summer Assignment 2017

1. Please fill out my **APCSP Student Info Form** <https://goo.gl/forms/8z3KQcSAKhDiR2xk1>
2. Sign up for our APCSP Remind101. I will send out reminders over the summer so go ahead & sign up!
To join text @dyerapcsp to 81010 if you prefer email reminders send a blank email to dyerapcsp@mail.remind.com.
Parents/guardians are also welcome to sign up – but the APCSP students MUST sign up.

3. Create

A. Code.org

- Create an account with code.org (<https://code.org/>)

B. Codecademy

- Create an account with Codecademy
<http://www.codecademy.com/tracks/python>

Note: Students’ accounts will be checked by the teacher during the first week of school. They will need to share information about their account (username) with the teacher.

4. Read

Your summer assignment includes reading the book, “Blown to Bits. This book is available for free over the internet by clicking on the link below.

Computing has transformed our lives in so many ways. Mobile computing, where we are constantly connected to others and to the world via our mobile devices, is challenging us right now to come with new norms about privacy, security, the ownership or openness of data and information, and other issues. Like any technology, mobile computing has both positive and negative impacts. We need to reflect on these impacts in general and we also think about the impacts we will create as we build our own mobile apps.

One way we will be addressing these issues in this course is by reading and discussing Blown to Bits: Your Life, Liberty, and Happiness After the Digital Explosion. This book is available entirely online with a separate PDF file for each chapter. You can access the website through the link below. Save it in your phone/tablet or other e-reader device so you can access it anywhere:

http://www.bitsbook.com/wp-content/uploads/2008/12/B2B_3.pdf

YOU ONLY NEED TO READ CHAPTERS 1--6. Note that throughout the year, you will be given quizzes on the vocabulary and other content from this book. In addition, your midterm will include a significant amount of material from this book. For this reason, while you are reading, I am requiring you to complete:

- 1) The attached vocabulary list (find definitions YOU understand)
- 2) The attached double entry journal sheet for each Chapter 1--6.

AP Computer Science Principles Summer Assignment

Blown to Bits Vocabulary

Chapter 1: bit blacklist character cyberspace data center data data network disk drive intellectual property Moore's Law network processor social networking whitelist	Chapter 2: ad hoc database data aggregation data mining data repository data sources digital detritus Dossier EDR Encode Encryption IP address	Metadata Query RFID
--	---	---------------------------

<p>Chapter 3:</p> <p>Algorithm</p> <p>Analog</p> <p>ASCII</p> <p>cloud computing</p> <p>Cryptography</p> <p>Digital</p> <p>digital signal</p> <p>processing</p> <p>download</p> <p>lossless compression</p> <p>lossy compression</p> <p>Megabyte</p> <p>megapixels</p> <p>modeling</p> <p>OCR</p> <p>Pixels</p> <p>raster</p> <p>render</p> <p>spam</p>	<p>Chapter 4:</p> <p>Background</p> <p>binary</p> <p>Bot</p> <p>Cache</p> <p>firewall</p> <p>foreground</p> <p>HTML</p> <p>URL</p>
<p>Chapter 5:</p> <p>AES certification</p> <p>authority</p> <p>ciphertext</p> <p>DES</p> <p>decryption</p> <p>encryption</p> <p>packet</p>	<p>Chapter 6:</p> <p>centralized systems</p> <p>commons</p> <p>DRAM</p> <p>DRM</p> <p>flooding</p> <p>gigabyte</p> <p>storage, TPM</p>

AP Computer Science Principles Summer Assignment

Double-Entry Journal (Chapter 1)

Directions: As you read, right down four ideas from this part of the chapter that you believe are critically important to this topic. You can quote the authors or summarize them. Include the page number. Then write your reaction to the idea.
