Testimonials

Jose Graves

2020-2021

Healthcare Academy President

As President of the Academy, I was able to enhance my leadership skills. The academy introduced different career paths and skills needed in healthcare. While memorization is important, we also learn critical thinking techniques for different situations pertaining to the medical field. On top of this, we like to think of ourselves as a family, meaning we support one another in our health science class and other core classes as well.

AdventHealth

Official Healthcare Champion of Volusia County Schools

Academy Classes

Health Science Anatomy and Physiology
Health Science Foundations
Medical Skills and Services
Allied Health Assisting
Nursing Assistant
Executive Internship I and II

HOSA

HOSA Future Health Professionals is an international organization that is dedicated to promoting careers in the health care industry for student leaders and to enhance the delivery of quality health to all people. Our Healthcare Academy students are required to participate in HOSA to test their skills and and further their Healthcare educational experience.

Shadowing & Internship

Work based learning provides opportunities and work experience with our local business partners such as, Advent Health, and other medical facilities.

Shadowing

Students will be able to shadow many different types of health careers of their choice. Students will have the opportunity to observe first-hand what was taught in the classroom.

Internship

While interning, students will be able to experience and be a part of the many day to day activities that occur in the health care system.

Students will have the opportunity to learn in "real world" situations in various departments such as Emergency room, Intensive Care Unit, Athletic Training, and Rehabilitation.

Industry Certifications

CNA (Certified Nursing Assistant)
CMAA (Certified Medical Assistant)
CET (Certified EKG Technician)
CPR (Cardiopulmonary Resuscitation)

We encourage our students to further their knowledge and outreach by taking different types of certification exams. These state approved exams allow our students to earn professional medical certifications as evidence of their proficient skill.

Affiliated Organizations

HOSA Future Health Professionals
SWAT (Students Working Against Tobacco)
American Red Cross
