

Changing your Child's Instructional Method at T. Dewitt Taylor Middle High School.

Q: For students who has select Volusia Live, can they switch to the Traditional Classroom option at any time? What about the opposite – for students who select the Traditional Classroom, can they switch to Volusia Live at any time.

Students selecting the Traditional Classroom option or Volusia Live cannot mix-and-match their schedules and spend part of the day in the Traditional Classroom and part of the day on Volusia Live. Students may not go back and forth between the two options day-to-day. However, if a student in either the Traditional Classroom or Volusia Live would like to switch to the other option altogether (**one-time switch**), that will be allowed by the school, but ideally that switch would be done at the end of a grading period. These changes may take up to 48 hours to take affect and students should continue in their current selection until they are notified by the school the change is complete. NOTE: temporary moves from the Traditional Classroom to Volusia Live will be allowed if and when students are quarantined.

Q If a student selects Volusia Live, will they be provided with a laptop?

If a student does not have a device, Taylor Middle High School will be assisting them with their technology needs. However, the amount of equipment available is limited. The school will need 24 hours to secure the technology for check out and will contact the family when it becomes available.
